## ASC & OFFICE-BASED ANESTHESIA SERVICES

---

### ASC & Office-based Anesthesia Services

Economic pressures continue to drive surgical and invasive procedures from hospital operating rooms to office and ambulatory surgery centers (ASCs). With NAPA Ambulatory Anesthesia Services (NAAS), you can offer health care consumers the convenience of receiving anesthesia in an ambulatory setting while maintaining the safety of a hospital environment.

Administering comprehensive anesthesia services in a non-hospital setting has its challenges and NAPA Ambulatory Anesthesia Services adheres to the same rigorous standards employed at the premier hospitals we serve.
